SMALL FARMING PAYS. Secret of Success in Farming is Thorough Cultivation.

All over the west the question of small farming is absorbing the attention of our land owners. Those who only have small tracts to commence with are beginning to see that their fortunes lie, not in the addition of acres, but in the more systematic and thorough cultivation of that which they already possess. Kibbey at Phenix, where the question was as to the right of a Chinaman, acknowledged to be within the United States unlawfull to the privileges of the writ of habe corpus; that writ under the constitution of the United States being guaranteed only to persons lawfully within the juris diction of the courts of the United States Although this was a grave constitutional question, and was for the first time raised n these cases, yet Judge Kibbey prompty vacated the writ of habeas corpus, on he ground that alien Chinamen unlawfully within the United States were not entitled to its rights. This seems to be sound law, and if sustained by the higher courts, as it doubtless will be, it will put the last time I came here was in article field. I have since heard she got martied and went east and was living a happing hife. Lorenzo still lived in Rogue River Valley, at least I was told so. This liver Valley, at least I was told so. This take advantage of one law to violate an other law of the United States.

The Skeleton of a Man Found

Last evening a Mexican came into town and announced to Justice Richards that the body of a man had been found at a point near the red hills, about half way between the Hole-in-the-Rock and the Cross-cut canal. All the flesh was gone from the bones, not a scrap of clothing remaining to give clue to the identity of the unfortunate.

Murder was the evident cause of death, for the back of the skull had been smashed by means of some blunt instrument. The Mexican was unable to give any facts other than stated above. The finding of a body at this point is significant, for it was near there that Oscar Gibbs found the bodies of his two horses, tied, dead of starvation. There may be some connection between the

theft of the horses and this dead man.

A New York press dispatch of July 13th

says: An Arizona cattle king was re-ceived by Dr. Gabier at the Pasteur Institute to day. He was bitten by a pole cat about two months ago, and is apprehensive of fatal results. He bases his fears upon the fact that four men in his vicinity who were bitten by the species of animals died afterward, show ng every symptom of hydrophobia. The cattle king, whose name Dr. Gabi Especial remark is made by visitors to this valley upon the superior class of the cially to enter the Pasteur Institute. His

An Apache Pardoned. Phenlx Republican.

Governor Wolfley has issed a pardon for one Lashe, an Apache Indian, who was about a year ago sentenced from Graham county to the Territorial Prison for the term of two years. Lashe was sentenced for killing a calf. He admitted the killing, but maintained that he thought at the time that the calf belonged to his band. The pardon was granted upon the evidence presented by a petition gotten up by Captain Johnson, of Apache, wherein it is stated that the Indian had plead guilty, that the calf was not worth over \$5, and that Lashe had already, in the County Jail and Penitentiary, under-

Font Humphreys, recently, at the sheep camp of Humphreys & Austin, near Williams. The animal was an unusually arge one, and in midday came within a few yards of camp, selected a fine sheep from the flock and retired to the shade of a bush near by to cut a mutton dinner. The Mexican herder who was with the sheep, very much frightened at the bold-ness of Mr. Bruin, hastened to camp and informed Mr. Humphreys, who went out and dispatched bing
